Aims of your Course

The aim of the course is to prepare you physically and mentally for a career in the Uniformed & Emergency Services (U&ES). The aims of the award have been divided into principal aims and general aims. The principal aims define the vocationally specific competences and knowledge that candidates will develop. The general aims are more general and reflect the overall thrust of the award.

Principal aims –

- Prepare candidates who are considering a career in the U&ES by providing an introduction to the entry requirements and induction into the U&ES.
- Equip candidates with the skills and knowledge that will lead to a qualification that will enable the candidates to reach the recruitment requirements of the U&ES.
- Enable candidates to make an informed judgement of their own suitability to a career within the U&ES.
- [Improve employability, enterprise and citizenship skills. Linking in with Curriculum for Excellence –](#)

They will demonstrate this by becoming more independent and successful in their learning, by having greater knowledge and more secure understanding, and by being able to use the knowledge that they have more effectively.

- Preserve and build upon existing good practice.
- Ensure compatibility with feeder qualifications, in particular Skills for Work (SFW) in Uniformed and Emergency Services (Intermediate 1)
- [Develop Core Skills.](#) A group of five skills key to learning and working in today's world: Communication, Numeracy, Information and Communication Technology, Problem Solving and Working with Others. Core Skills equip learners to assume the active, flexible, and responsible role that modern workplaces need and society expects.
 - Communication
 - Numeracy
 - Information and Communication Technology
 - Problem Solving
 - Working with Others
- [Develop Meta skills.](#) – Meta-skills are innate, timeless, higher-order skills that create adaptive learners and promote success in whatever context the future brings.
